WORK EXPERIENCE

ADT Security Services, Boca Raton, FL
Pulse Engineer Intern

June 2015-August 2015

- Collaborated alongside Pulse Success Team to help improve the uptime of ADT Pulse, which reduced technical debt, capacity planning, and scaling the application to support tremendous customer growth
- Utilized Python scripting for activation scripts, which collected monitoring data to feed to Graphite
- Assisted in building a Customer Premise Equipment lab in Aurora, Colorado, which contained each type of Pulse panel
- Pulled data directly through IBM's Tivoli portal and exported it through that interface

Proper Channel, Inc., Tallahassee, FL
Marketing Intern

January 2015-May 2015

- Increased the company's social presence through blogs, social media, and search engines
- Managed incoming media requests and built relationships with industry professionals through the creation, execution, and measurement of media campaigns
- Utilized Google Analytics to generate reports on metrics and continually find ways to improve on those metrics through testing and new initiatives

ADT Security Services, Boca Raton, FL
Business Analyst for IT Operations Intern

June 2014- August 2014

- Delivered IT Operations insight to the Senior Project Manager and Senior IT Director
- Served as a liaison between Business and IT to provide technical and business support to meet user needs
- Analyzed and documented current state business processes and assisted with capturing the to-be business processes
- Created an innovation start up challenge where the purpose was to pitch a product/service which the innovation department would purchase

Study Edge, Tallahassee, FL
Academic Intern

August 2013-January 2014

- Tutored and provided relevant information about Microeconomics course to staff and 100+ students
- Increased visibility of Study Edge through consistent, relevant social media presence
- Attended weekly meetings with Director of Campus Marketing and Outreach to discuss resources, goals, execution, and new ideas

TECHNICAL SKILLS

- Technical Languages: Java, SQL, HTML & CSS
- Databases: MS SQL Server 2014, MySQL Workbench
- Database Software: Tableau
- Packages: MS Office & Mac OS X
